**WEDDING PHOTOGRAPHY  
2026**

A modern, boutique approach to capturing  
your day with clarity and intention.

Thank you for taking the time to review my wedding photography guide.

I approach weddings with the same level of care, consistency, and professionalism that I bring to the events and clients I work with year-round. My goal is to document your day in a way that feels natural, well-paced, and true to how it actually unfolded—while still creating images that feel elevated and intentional.

Throughout the day, I'll guide you when needed and step back when it matters most. This balance allows you to stay present while knowing that everything is being captured with purpose and attention to detail.

From our first conversation through final delivery, my process is designed to be clear and easy to navigate. You can expect thoughtful communication, a steady presence on the wedding day, and a final collection of images that reflects the full story of your celebration.

I appreciate the opportunity to be considered and look forward to connecting with you.

# How It Works

## 1. Review the Work

Take time to explore my portfolio and make sure the style and approach resonate with you. A strong connection to the work is the most important part of choosing your photographer.

## 2. Connect

We'll schedule a quick call to talk through your plans, timeline, and what matters most to you. This is also a chance to make sure we're a great fit.

## 3. Reserve Your Date

Once you're ready to move forward, I'll send over a simple online agreement. A 25% retainer secures your date.

## 4. Wedding Day & Delivery

On the day, I'll guide when needed and keep things moving naturally so you can stay present. Afterward, you'll receive a complete, professionally edited gallery that reflects the full story of your day.

My goal is to keep the process simple, so you can focus on enjoying the experience.

## Wedding Coverage

Coverage begins at 3600 for up to 6 hours.

This secures your date and provides a strong foundation for your day.

Additional coverage may be added at 500 per hour as your timeline develops.

Most weddings fall within 8-10 hours of coverage, depending on the structure of the day.

Coverage is personally photographed by Eder, with additional support added when the timeline or scale of the event calls for it.

Second photographer coverage is available beginning at 1200 for up to 6 hours, with additional time at 200 per hour.

All coverage includes professionally edited, high-resolution images delivered through a private online gallery.

## Engagement Sessions

Engagement sessions are a great way to get comfortable in front of the camera while creating a set of images that reflect your relationship in a more relaxed setting. It also gives us a chance to work together before the wedding day, so everything feels natural and familiar.

Sessions are designed around your style and planned with intention—whether that’s a simple, natural setting or a more styled look with dynamic lighting and multiple locations.

### Signature Session — 750

A fully guided session with flexible timing, multiple locations, and the option for dynamic lighting setups. Designed for a more styled and versatile look.

### Essential Session — 900

A simplified session built around natural light and a single location. Ideal for a clean, relaxed approach without additional production.

All sessions include professionally edited, high-resolution images delivered through a private online gallery.

Sessions are planned in advance to align with location, timing, and overall creative direction.
